## Cloud & DevOps Engineer

Cloud & DevOps Engineer with 5 years of experience in designing, automating, and deploying cloud-native solutions on Microsoft Azure. Experienced in Infrastructure as Code, CI/CD, containerization, Kubernetes, Power BI automation, Azure DevOps, GitHub Actions, Docker, Terraform, Azure Logic Apps, and Azure Key Vault.

Proven track record of delivering secure, scalable automation solutions that reduce manual effort and improve deployment reliability. Azure and Databricks certified with strong experience in cloud architecture, DevOps practices, and enterprise application modernization.

## WORK EXPERIENCE

### LTIMINDTREE | CLOUD & DEVOPS ENGINEER

MAY 2025 – PRESENT

- Designed and implemented an automated Power BI App deployment framework using Azure Logic Apps, Azure DevOps, and Azure Key Vault, enabling developers to deploy report updates independently while eliminating administrator intervention.
- Developed an automated secrets management solution to securely synchronize application secrets into Azure DevOps using Azure Key Vault, improving security and reducing manual credential handling.
- Built an automation solution to automatically renew Azure Databricks access tokens and update them in Azure Key Vault, eliminating manual maintenance and preventing token expiry.
- Implemented CI/CD pipelines using GitHub Actions, automating application deployment to Azure Container Registry (ACR) and Azure Web Apps, including rollback capability for safe production deployments.
- Containerized applications using Docker, published images to Azure Container Registry, and integrated deployments with Azure Web Apps for streamlined application delivery.
- Deployed and managed containerized workloads on Azure Kubernetes Service (AKS) using images stored in Azure Container Registry.
- Worked with solution architects to prepare Application Engineering Documents (AED) and Technical Interface Design (TID) documentation for enterprise cloud solutions.
- Managed Azure DevOps repositories, pipelines, artifacts, and release processes to improve deployment reliability.
- Implemented secure integrations between Azure services using Azure Key Vault, RBAC, and managed identities.
- Designed automation workflows that reduced manual effort, improved deployment consistency, and increased operational efficiency across environments.

### INFOSYS | CLOUD ENGINEER | SEP 2021 – MAY 2025

Cloud Engineer (Mar 2024 – May 2025)

- Developed Infrastructure as Code using Terraform to provision Azure resources and standardize deployments.
- Deployed Azure Function Apps and integrated Azure services to improve scalability and operational efficiency.
- Created and configured Azure File Shares with Active Directory authentication, improving secure data accessibility.
- Configured SSL certificates, Azure Key Vault integration, Linux Cron jobs, and Azure DevOps repositories.
- Implemented Microsoft Defender recommendations and security best practices across Azure resources.

System Engineer (Oct 2022 – Mar 2024)

- Designed and enhanced Azure Data Factory ETL pipelines for data ingestion and transformation.
- Optimized data movement from on-premises systems to Azure Data Lake Gen2, improving reliability and reducing failures.

- Built complex pipeline dependencies and linked services to improve workflow execution.
- Debugged and optimized enterprise ETL workflows to improve stability and performance.

## PERSONAL PROJECTS

**SINDHURUNNERS MARATHON PLATFORM** ([HTTPS://WWW.SINDHURUNNERS.COM/](https://www.sindhurunners.com/)) • DEC/2024 – PRESENT

- Designed, developed, deployed, and currently maintain a responsive marathon registration platform hosted on AWS, supporting participant registration and event management.
- Implemented responsive UI using HTML, CSS, and JavaScript with cloud-hosted deployment.

## CERTIFICATIONS

**AZURE FUNDAMENTAL (AZ-900)**

*Microsoft Azure*

**AZURE ADMINISTRATOR ASSOCIATE (AZ-104)**

*Microsoft Azure*

**AZURE DATA ENGINEER ASSOCIATE (DP-203)**

*Microsoft Azure*

**DATABRICKS CERTIFIED DATA ENGINEER ASSOCIATE**

*Databricks*

## SKILLS

**CLOUD PLATFORMS:** Microsoft Azure, Azure Kubernetes Service (AKS), Azure Web Apps, Azure Container Registry (ACR), Azure Functions, Azure Logic Apps, Azure Key Vault, Azure Data Factory, Azure DevOps

**DEVOPS & AUTOMATION:** Terraform, GitHub Actions, Docker, Kubernetes, CI/CD Pipelines, RBAC, Managed Identities

**DATA & ANALYTICS:** Power BI, Azure Data Lake Gen2

**PROGRAMMING:** Python, Java, JavaScript, PowerShell, Bash

**WEB:** HTML, CSS

**VERSION CONTROL:** GIT, GitHub, Azure Repos

**DATABASES:** MySQL

## EDUCATION

**BACHELOR'S DEGREE IN COMPUTER ENGINEERING • JUL/2021**

*New Horizon Institute of Technology and Management • Thane • GPA: 8.6*

## PUBLICATIONS

**HEALTHCARE ANALYTICS USING ENSEMBLE LEARNING • JUL/2021**

*International Journal of All Research Education & Scientific Methods*
